

# Beverley & Barmston Drain: Beresford Avenue

BRIDGE 4

## St John Newland Church & School

The church of St John Newland was first built at a cost of £1650. It comprised a simple box shape including a gallery and was consecrated in 1833 as a 'daughter church' of St Mary's Cottingham.

The present vicarage was built in 1863 and by 1869 it became a parish in its own right.

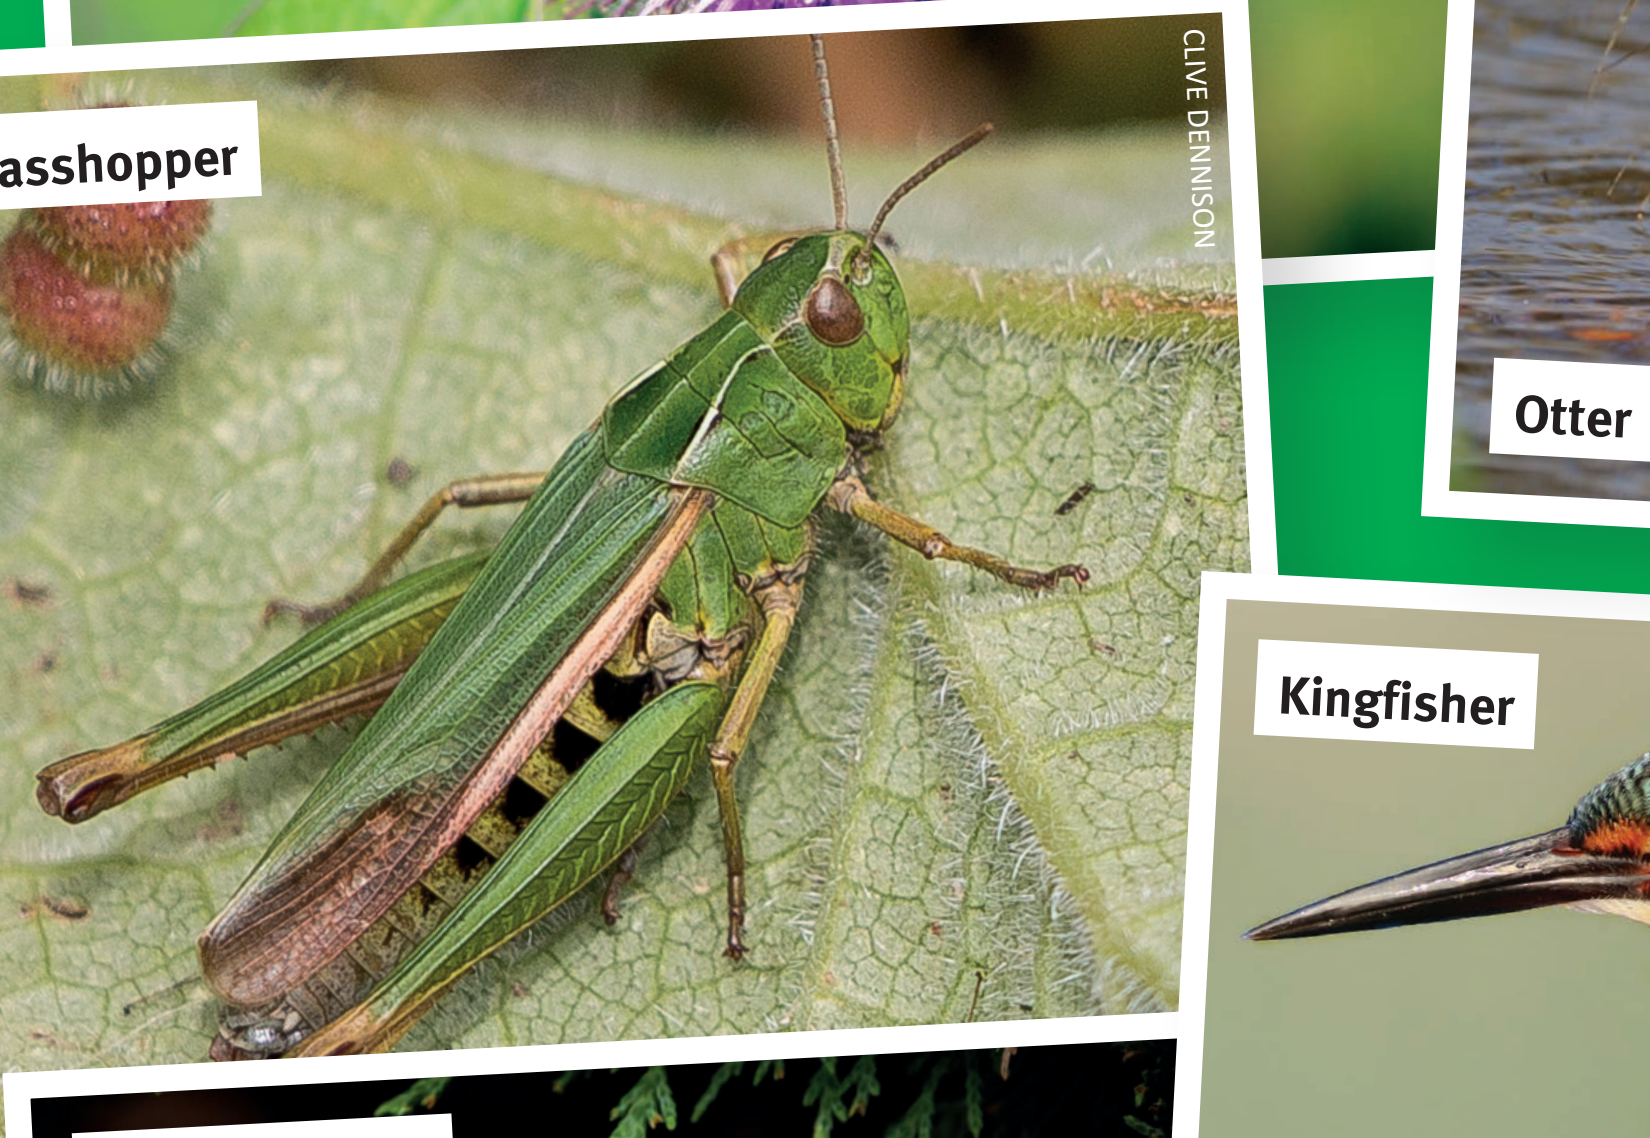

Joseph Malet Lambert was vicar from 1881 to 1912 and in his time the building was more than doubled in size with a chancel and a north aisle added, the nave extended and a baptistry and porches provided.

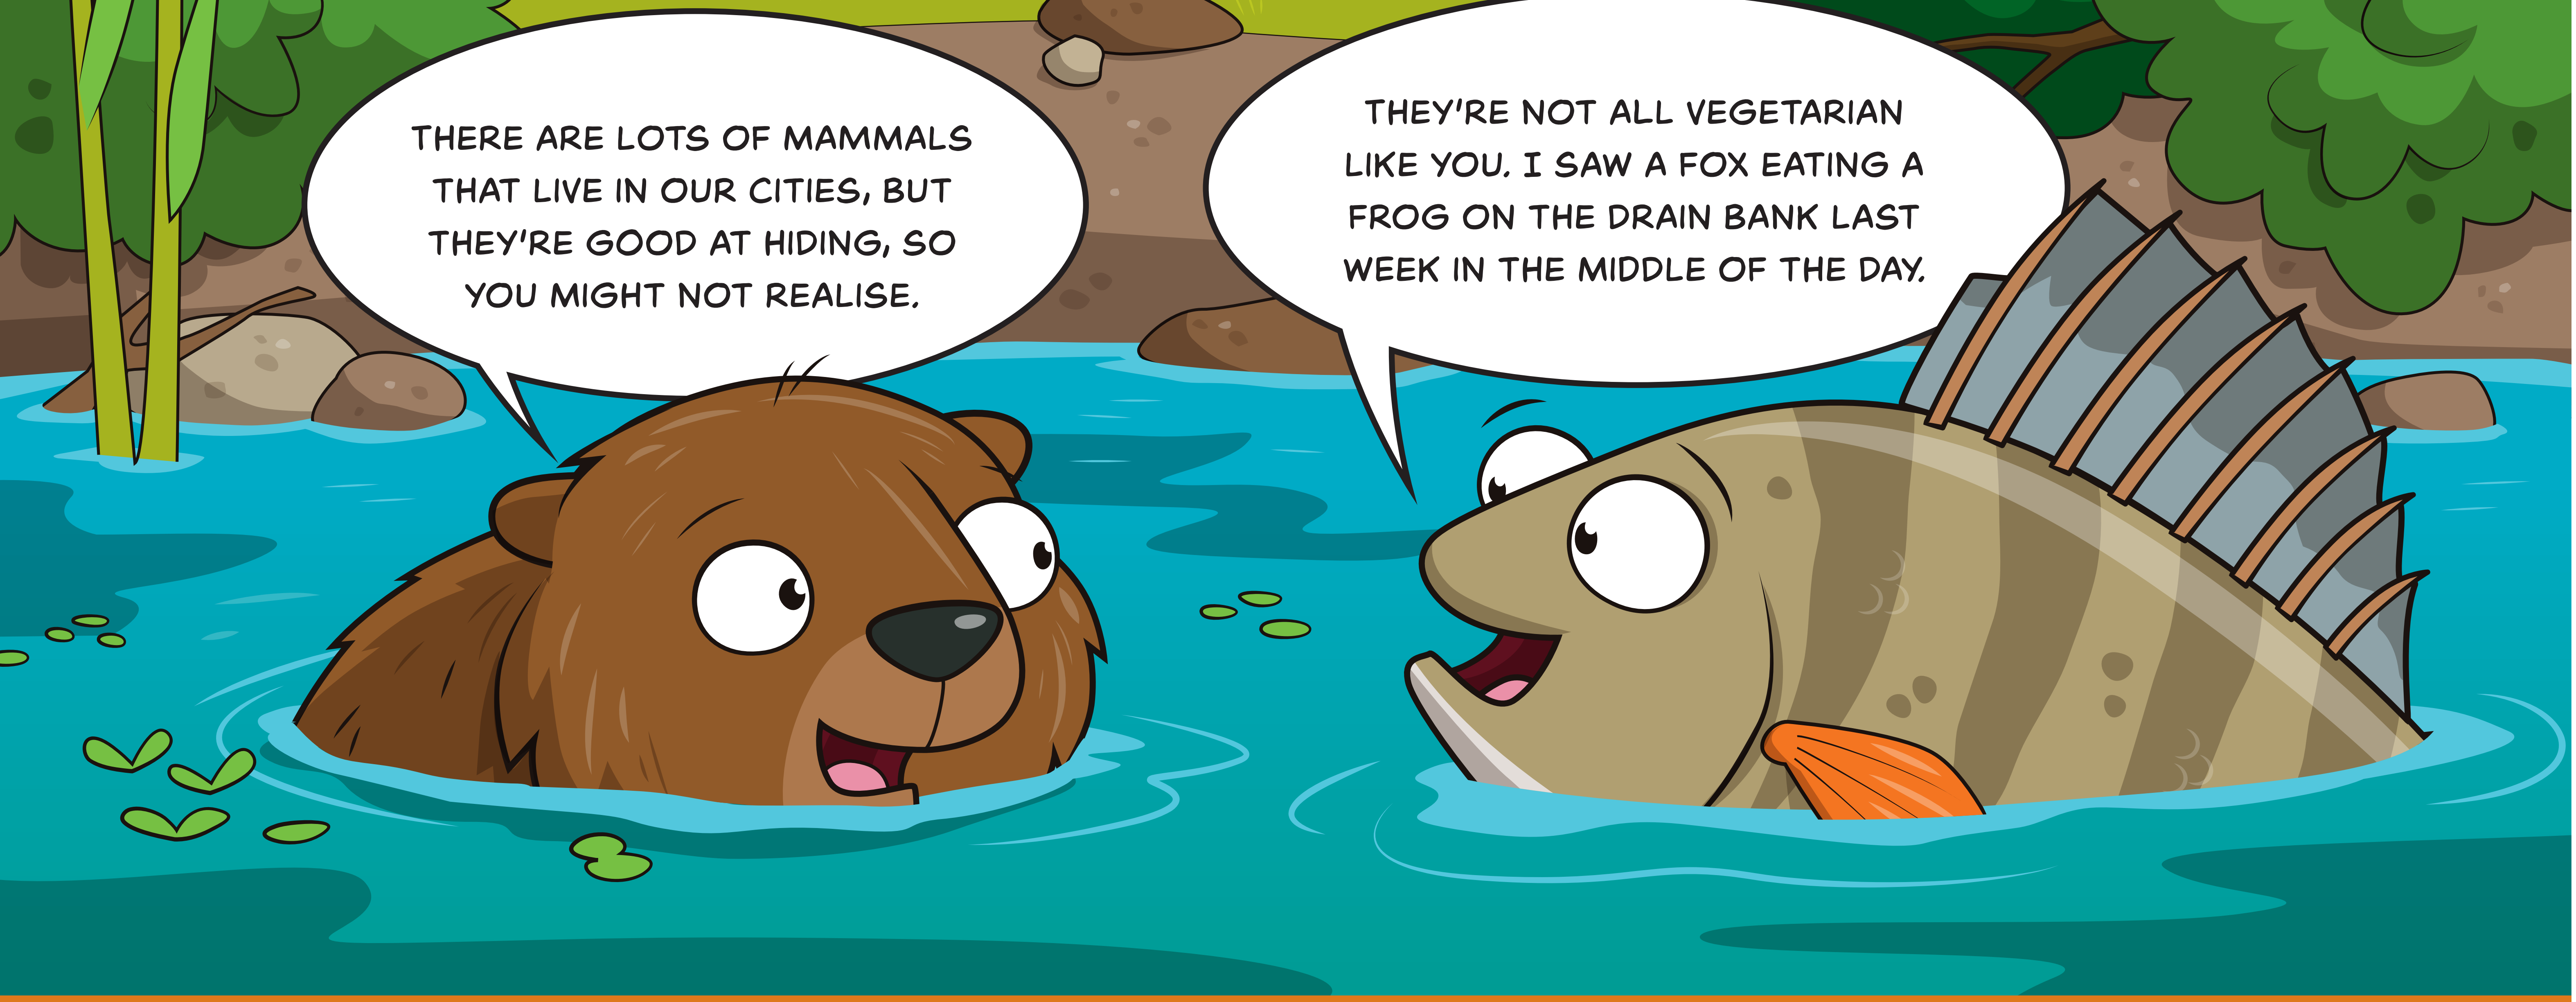

He was keenly interested in education and was deputy chairman of Hull Education Committee, Chairman of the Higher Education Committee and the first chairman of the Governing Council of Hull University College. He was also instrumental in the building of a new school in 1905 replacing the Previous 1865 building.

The present school was built in 1962 on a site on Beresford Avenue and subsequently much expanded.

**LOOK OUT FOR...**

THERE ARE LOTS OF MAMMALS THAT LIVE IN OUR CITIES, BUT THEY'RE GOOD AT HIDING, SO YOU MIGHT NOT REALISE.

THEY'RE NOT ALL VEGETARIAN LIKE YOU. I SAW A FOX EATING A FROG ON THE DRAIN BANK LAST WEEK IN THE MIDDLE OF THE DAY.

**LOOK OUT FOR**

A GROUP OF NON-NATIVE TERRAPINS LIVE ON THIS PART OF THE DRAIN. THEY LIKE TO BASK (SUNBATHE) ON THE BANK EDGES. AT THE MINUTE THEY CAN'T HATCH EGGS IN THIS COUNTRY, BUT THAT MIGHT CHANGE AS SUMMERS GET HOTTER.
